

CLEAR HEAD 150 DRILLING DETERGENT WETTING AGENT

DESCRIPTION

Enviro Clear Head 150 is a liquid blend of non-ionic surfactants formulated to increase detergency and wetting properties of drilling fluids. Can also be used as a substitute for foaming agents for use within Tunnelling and Auger boring applications through reactive clay formations.

RECOMMENDED USE

Enviro Clear Head has been developed to control interfacial tension and inhibit the hydration and dispersion of reactive clays and shales.

MIXING AND APPLICATION

Add 1.0-4.0 litres per cubic metre.

PACKAGING

25L pails or 1000L IBC's

Characteristics

- Reduces torque and drag associated with drilling in swelling clays.
- Assists in keeping the drill string and terminal gear clean and prevents bit balling.
- Designed to work in fresh or salt water.
- Mixes very easily.
- Biodegradable
- Environmentally friendly
